

# Buidlers.Space

The **all-in-one** web3 space for Creators & Brands

with NFT create/mint/trade/token gating/De-Social features

# Problem and Opportunity

# Problem

- A lot of NFT list on OpenSea/X2Y2 with different contracts and data flow
- Users fall into lots of Ponzi projects without value
- Launch a DAO require a lot of complicate tech stuff to use for Web2 users
- There is no standard no-tech token gating solution for Web2 users yet

# Opportunity

- Getting producers and consumers together all to web3 in a unified verse can help the productive economic more decentral
- While taking a very tiny transaction friction fee can be incredibly profitable as more users join in

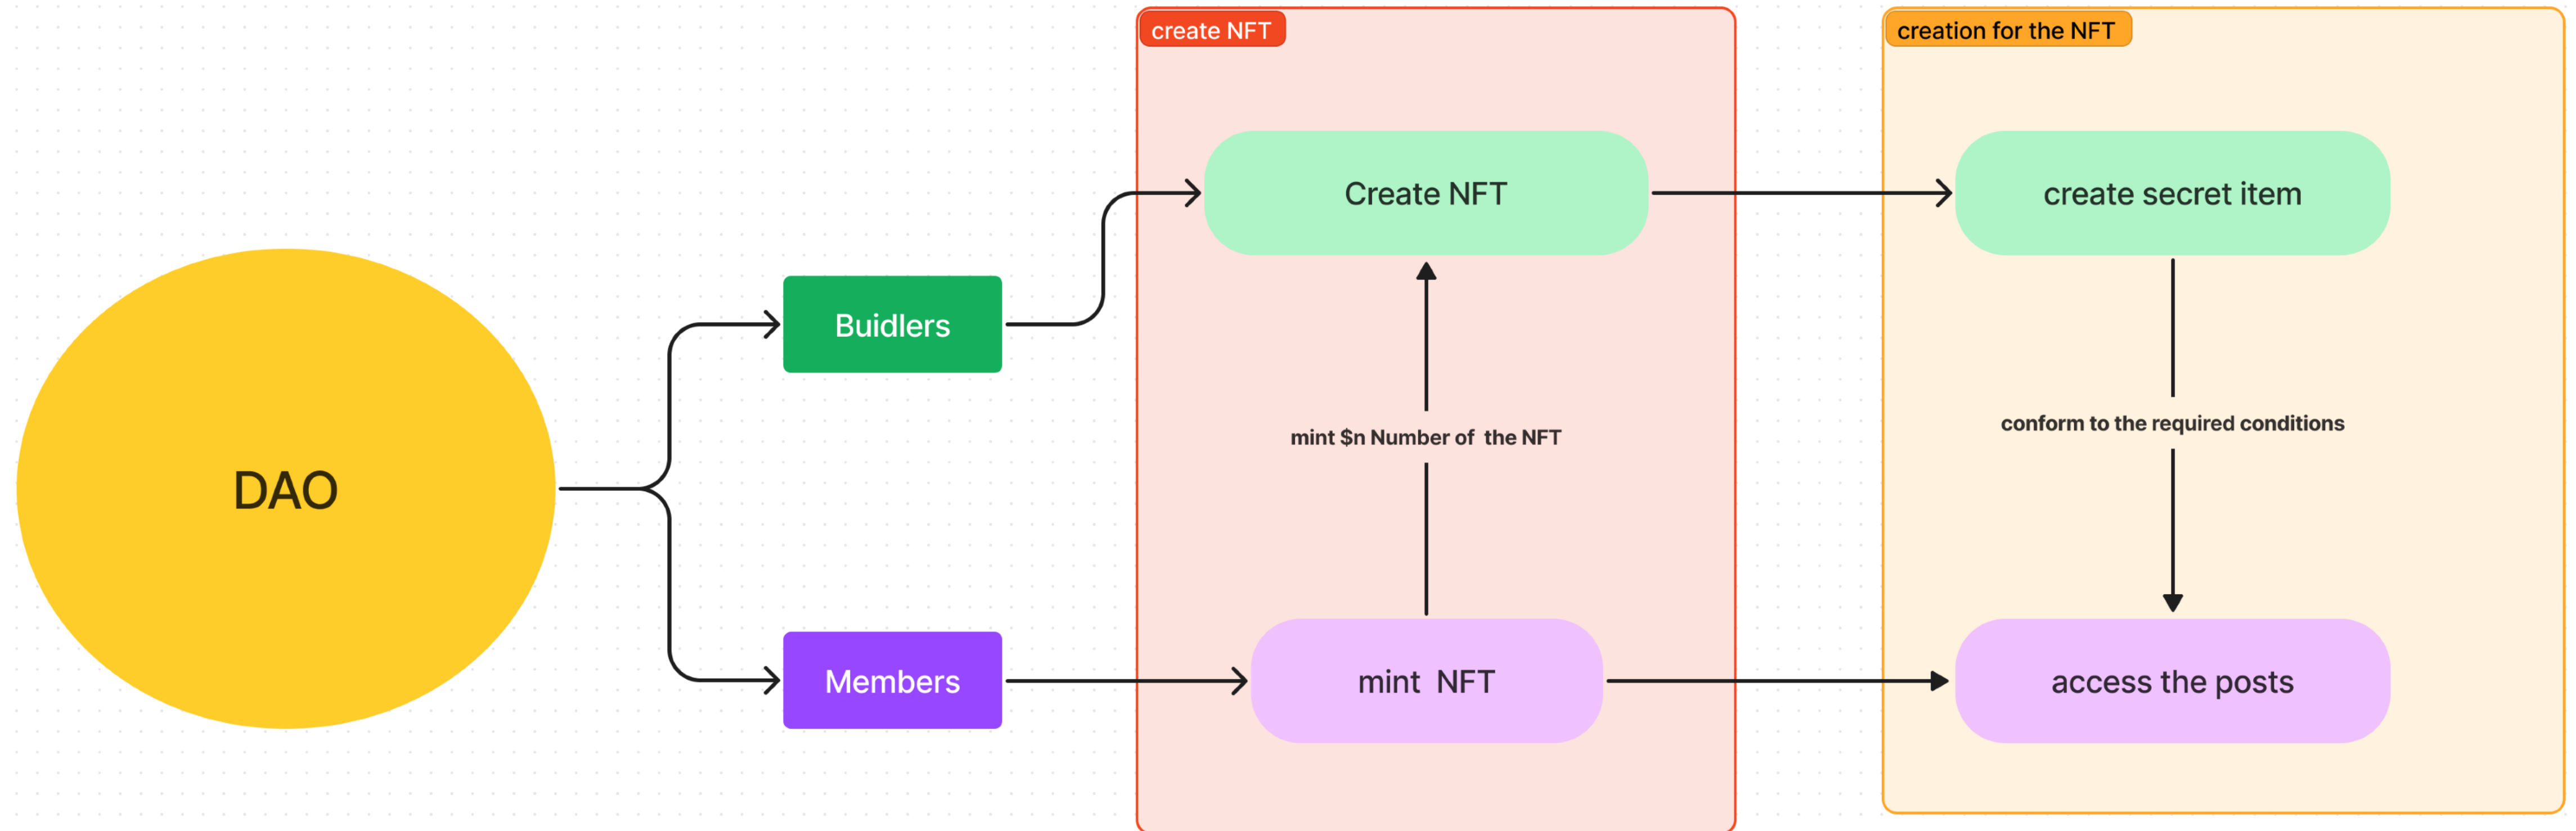

**Solution**

# NFT Revolution

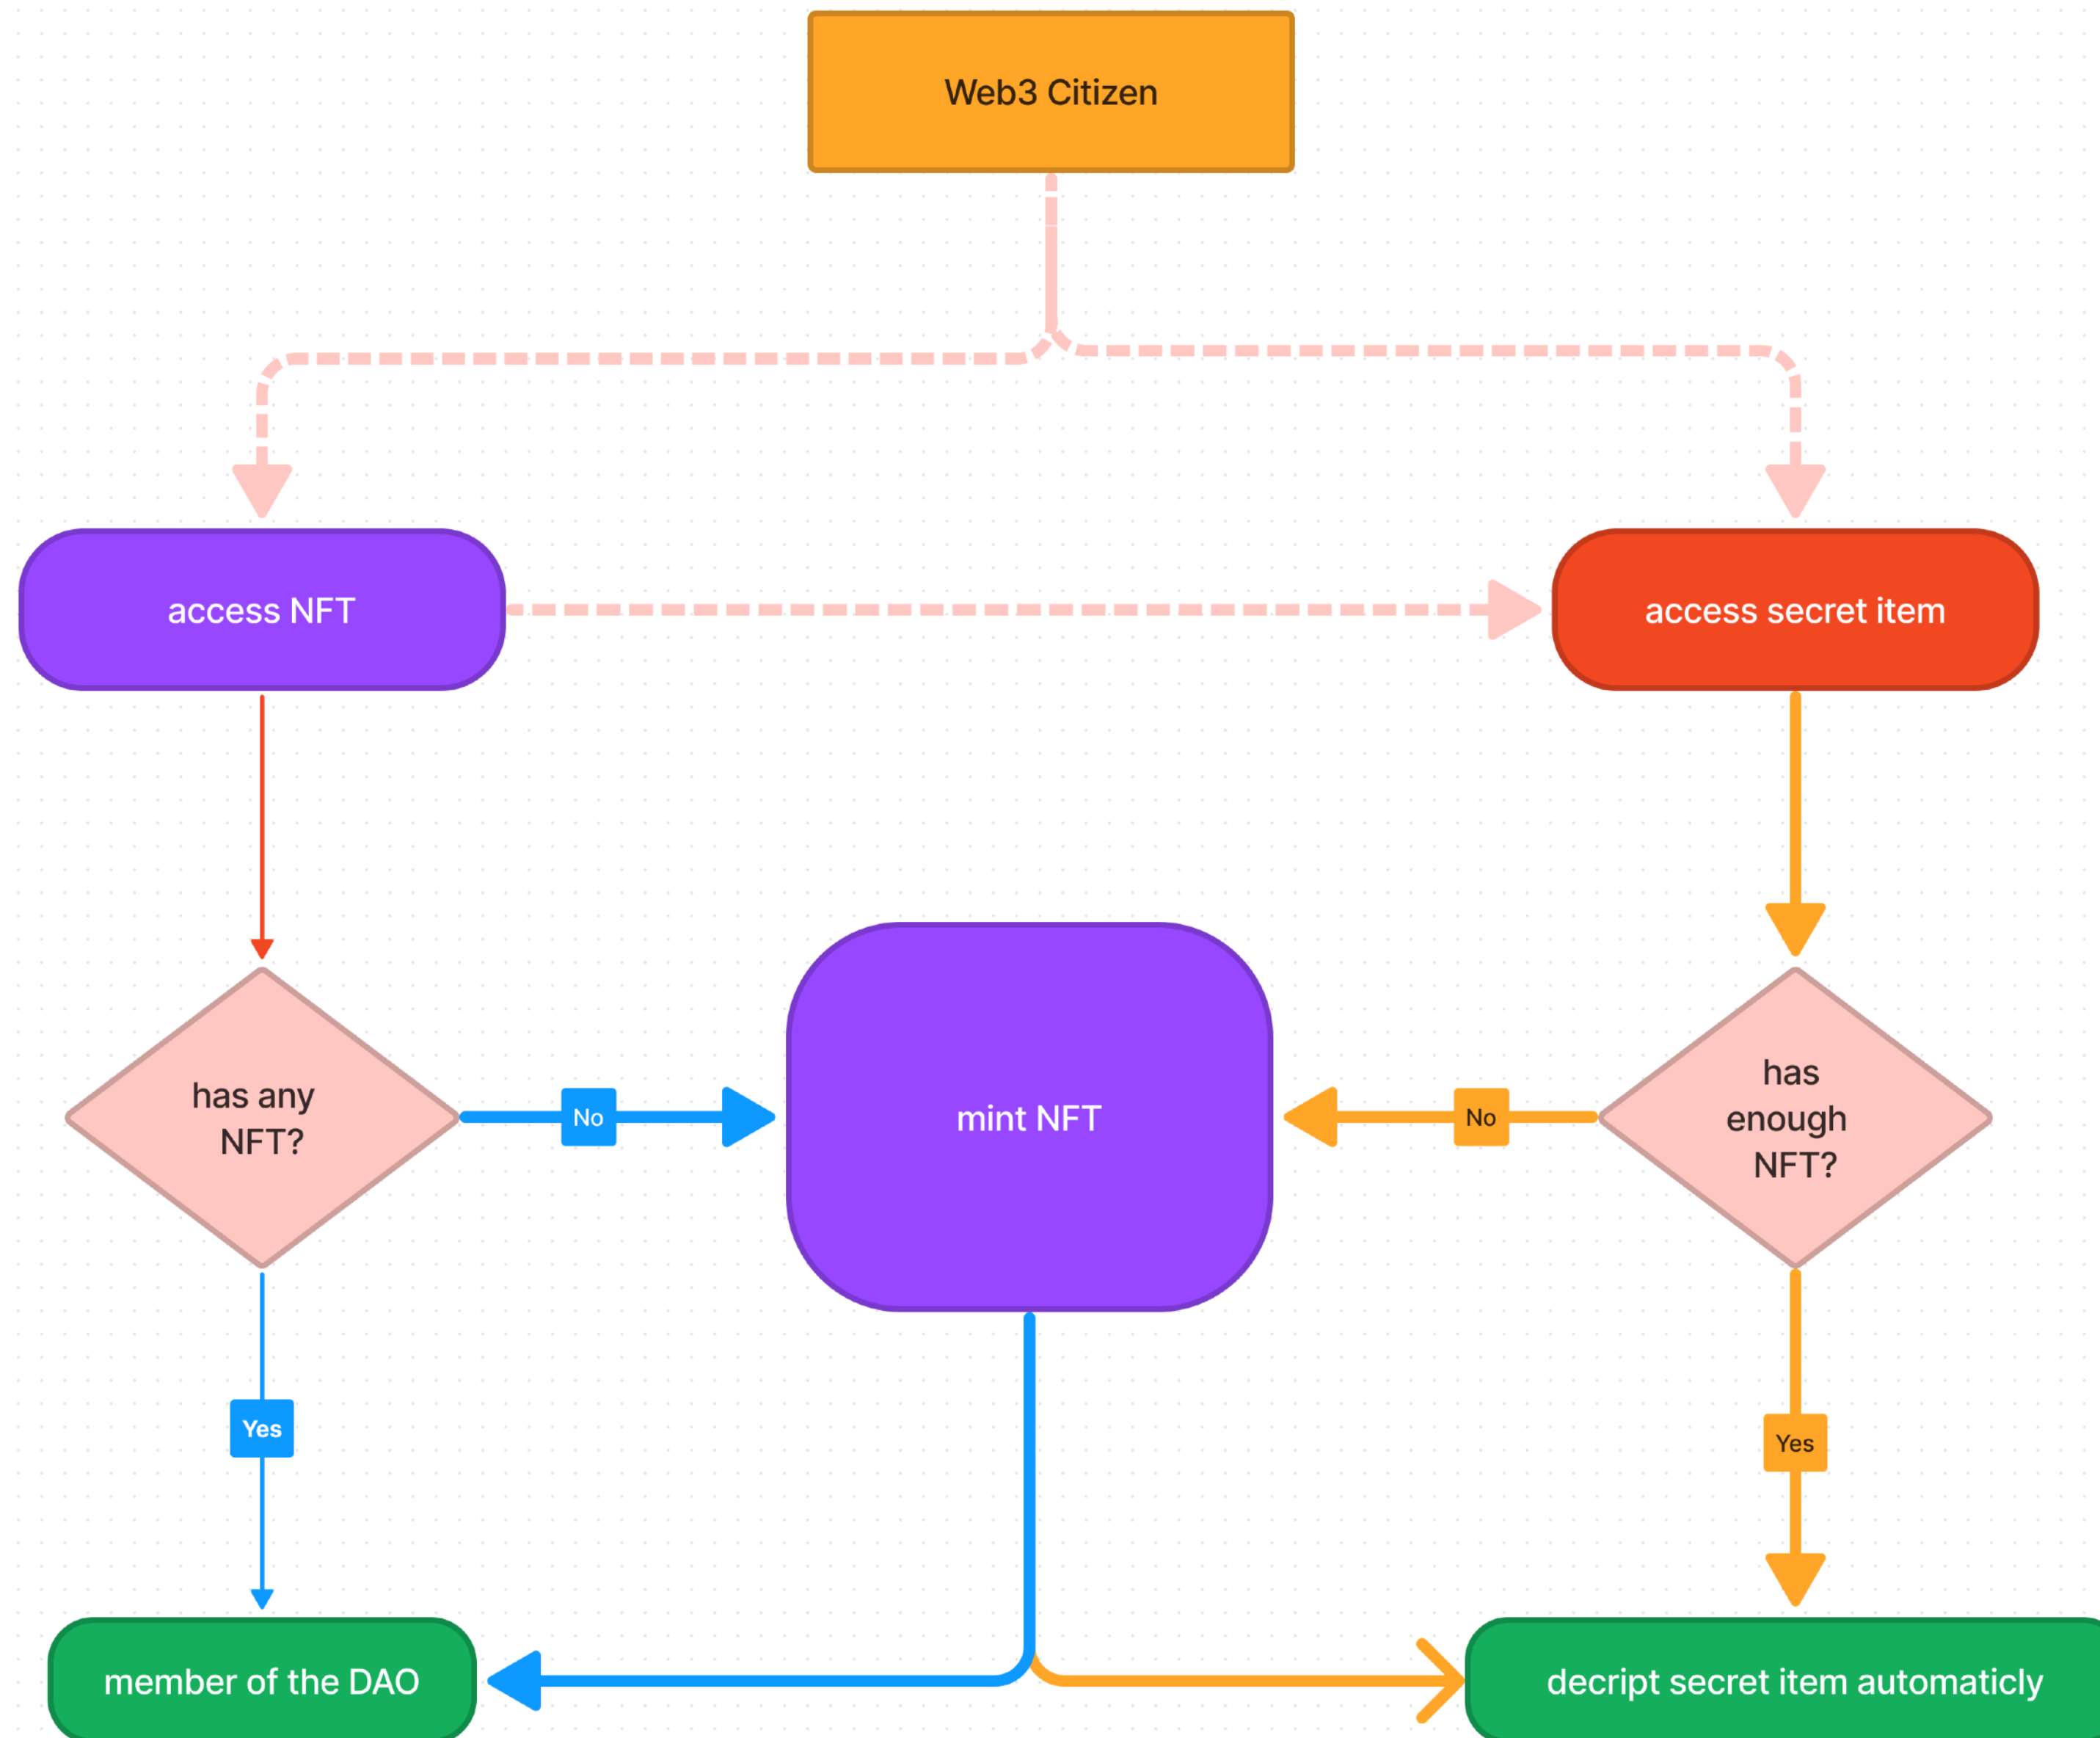

**We redefine what the NFT should be**

- No Code DAO Creation
- Community Tokenized Building
- Membership NFT as a Gating
- Fit for every industry in the real world

# No Code DAO Creation

# NFT-Gated Community Membership

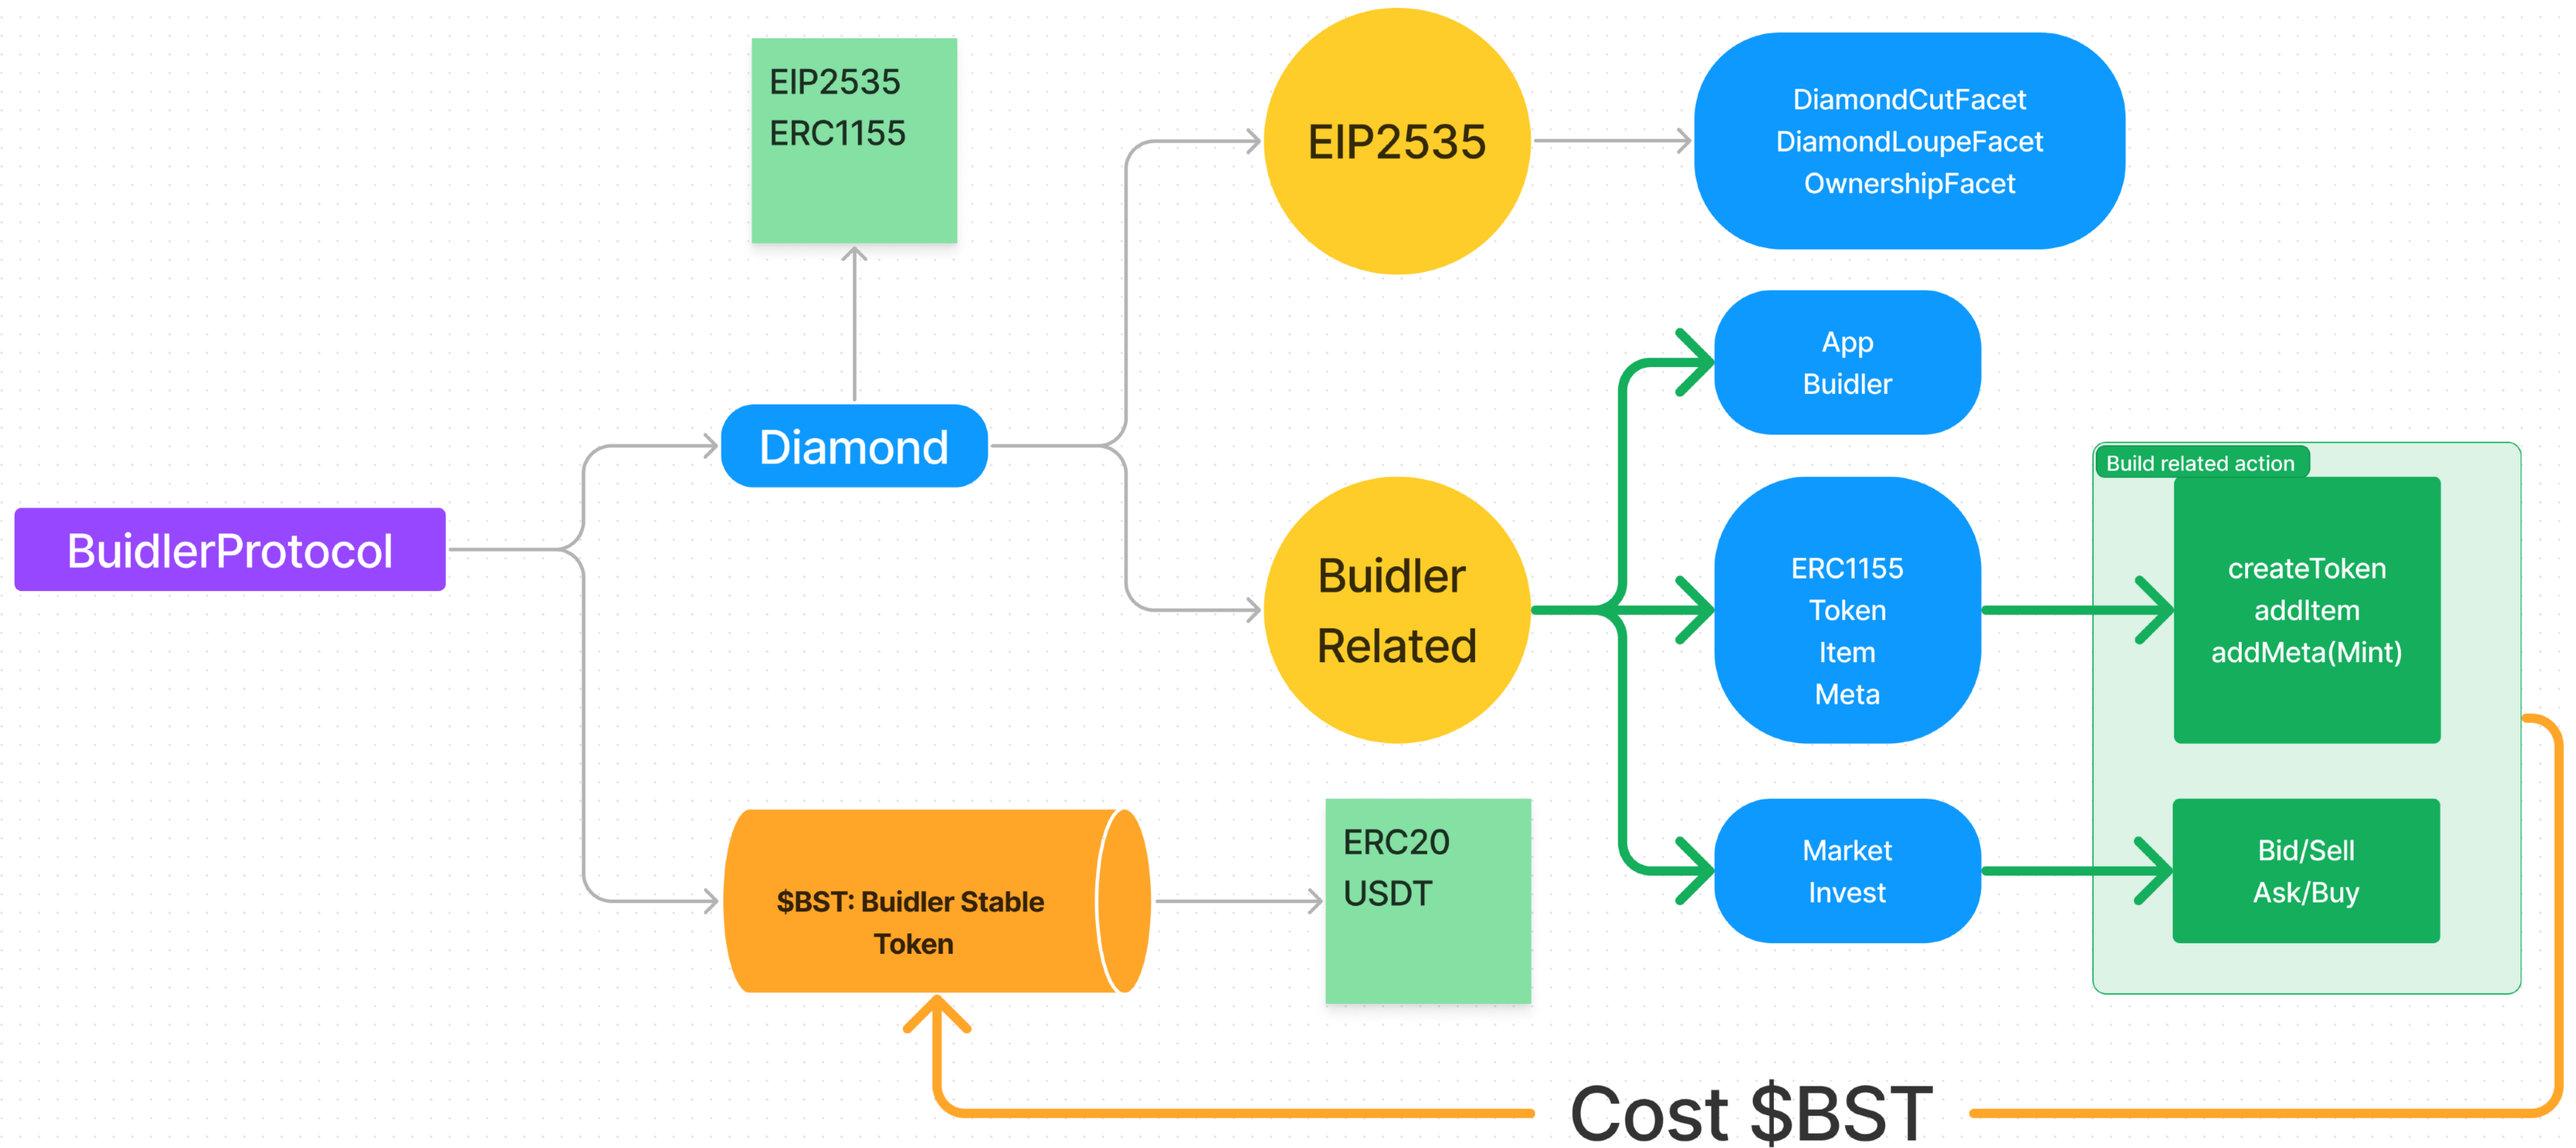

- Sell NFTs as Products
- Sell Membership NFT
- Create/Write To Earn

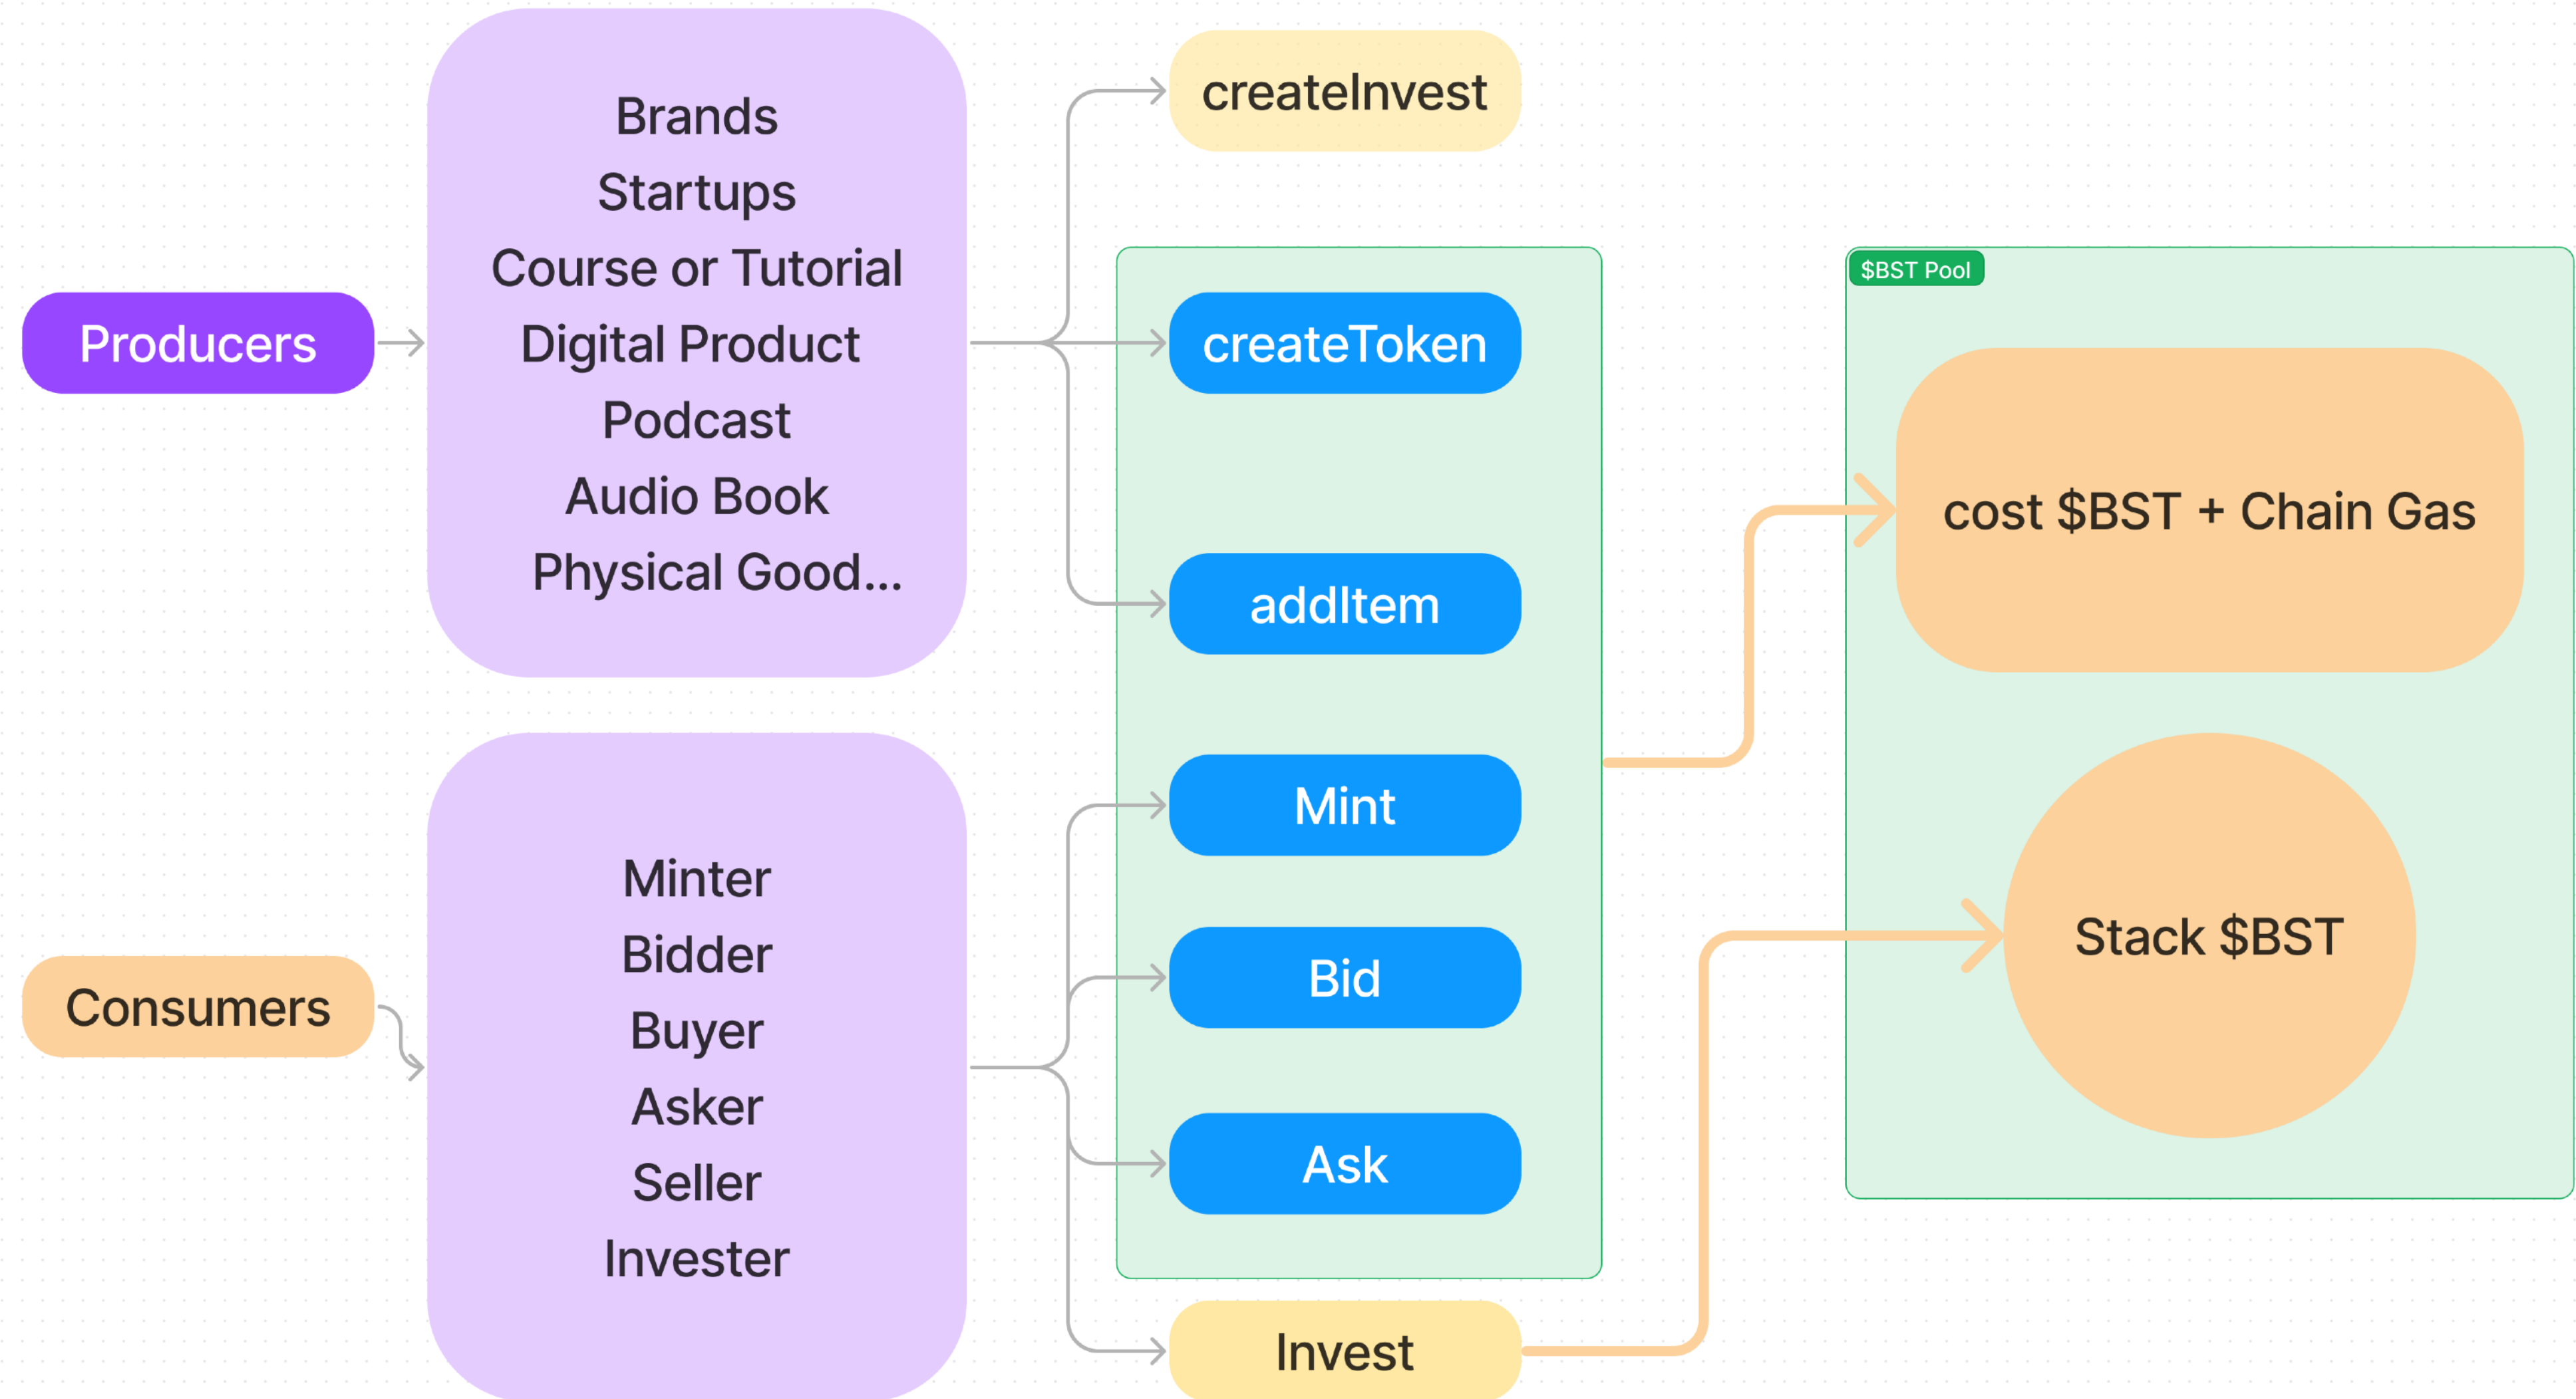

**How it works/earns?**

# Protocol

# User Actions

# Unleash the boundary of Web3

Turn Every Buidls into Web3
